

Invite you to a presentation by

William M. Arnold

*Professor in the Practice of Energy Management at the
Jess H. Jones Graduate School of Business at Rice University.*

"Wrong predictions, different outcomes"

a short discussion about how wrong most predictions on the oil and gas industry
have been during the years- prices, markets, LNG, peak oil...

**"Climate change following the collapse of Copenhagen
and failure to pass US federal legislation"**

A short reception will follow the presentation
